

Instructions to Authors for the Preparation of Papers

Conference papers submitted are the copyright of the author. By submitting a paper, the presenter agrees to its distribution to the conference registrants and to its deposit in an academic library or archives reference department where others may use it. If your work must be cleared or approved before publication by your company or by the government, please be sure that process will be completed by the due. A non-exclusive distribution license must be downloaded from www.ISABE2015.com and submitted for each paper accepted for publication.

Formatting the Paper

Length: The anticipated nominal length of a paper is eight (8) pages, in the designated format. Some latitude in length is permissible, but excessively long papers are strongly discouraged.

Authorship: No more than 4 authors can be listed under the Title. Additional contributing authors must be listed in a footnote.

Cover Page: Format per provided Sample, which should include Title, Authors (maximum of 4), Affiliations, Other Contributing Authors (names only as footnote). The ISABE Paper No. (ISABE-2015-xxxx) provided to you should also appear as shown in the Sample. This is the same as the Abstract ID/number.

Text: 10 Pitch, double column, format per provided Sample, using MS Word (*.doc).

Color: Figures and photographs can be in color. Movies cannot be embedded as part of a manuscript, although brief video clips can be included in the presentation if selected stills are included in the manuscript.

Submitting the Paper

All papers have to be uploaded at www.ISABE2015.com following the detailed instructions and guidelines given at the Website.

Papers should be capable of permitting corrections and / or changes by the corresponding National Representative to assure format and layout uniformity of all papers. A Microsoft Word (MS Word- *.doc) format is preferred for both the text and figures.

Extended Abstract

A book of abstracts will be prepared and distributed, along with a CD-ROM copy of Proceedings, to the Registrants at the Symposium. It is therefore important that the abstract is self-contained, and attracts the reader to the full paper.

- Maximum of 300 words, a complete summary by itself, with title, authors and affiliation
- List of keywords, 2 to 4, at the bottom

ISABE 2015

22nd ISABE Conference

October 25-30, 2015 Phoenix, AZ USA

Abstract Cover Sheet and Author's Biography

The Abstract Cover Sheet should contain the following information:

- Contact Author: Name, Affiliation, Address, Phone and Fax numbers, e-mail address
- Co-authors: Name, Affiliation

Only the presenting Author's biography is needed, maximum one-half page, single spaced.

Non-Exclusive Distribution License

Author should accept the terms and conditions of non-exclusive distribution license which can be downloaded from the Website.
